TAG REPORT

Please record tags for horseshoe crabs found in the quadrats while you are conducting the spawning survey. Record tag number(s) and tag type(s) in the chart below.

Figures showing possible locations of tags and tag types: The drawing on the left shows four possible tag types. (Note that an actual horseshoe crab will have only one or two of the tags shown.) The tag types are A) Radio tag, B) Glued disk tag, C) Round button tag, D) Squarish button tag.

A reward will be sent to anyone reporting tags. To collect your reward, information detailing when and where the animal was released should be reported by calling one of the following phone numbers: tags with US Fish & Wildlife should call Sheila Eyler, 1-888-limulus (546-8587); if Limuli Lab is listed on the tag, call Benjie Swan, 1-877-tagcrab (824-2722).

After you have completed the survey and if you have time, please look throughout the beach for additional tags, noting that you did not find these crabs in a quadrat. Also report these tags in the chart below.

Beach _____ **Date** _____

Found in Quadrat? (Y/N)	Alive? (Y/N)	Tag 1 Number	Tag 1 Type	Tag 2 Number	Tag 2 Type
